

3a Double Rail Installation

F5-METLR-D11

Rev. 2/14/12

Letters are drilled and tapped, mounted to two Aluminum C-Channel rails using stainless steel screws.

Size: 4" - 24" high letters
Styles: Any Style
C-CHAN: Max. 96" long - single piece

Letters are secured to rails (through backs) with stainless steel screws.
Letters are pre-attached to channels to insure proper hole location, then left either assembled (if smaller letters or short copy), or taken apart and shipped.

Example

Sales: Enter using code: H3DRAIL
